Step 2: Checking for Funder Mandates

IEEE understands that certain funders may have specific requirements that authors must adhere to remain eligible for funding. In order to assist you in meeting these requirements, please indicate below if your paper has been funded in part by an organization that carries a grant-based mandate.

If your work has been funded by an organization on the list below, please select it (if you select one of the funders listed you will receive additional instructions on steps needed to fulfill your requirements. If your funder is not on the list, please select "My work was not funded by an organization on the list")

What is a funder or research mandate?

Funders often require that grantees make their peer-reviewed publications publicly available, usually by posting a pre-print of the work within a sanctioned repository.

IEEE has partnered with a selection of funders to assist with the process by providing authors instructions based on their specific mandate.

Employment status = copyright status

An author's copyright status is determined to a large extent by the type of employer for whom the author works. For example, if you are employed by the U.S. Government, and you are the sole author of your paper, then you should select "Employed by United States Government."

Similarly, if you are the sole author and you are employed by a Crown Government (or if you and all your coauthors are Crown Government employees), then copyright to your paper will remain with the Crown Government. You should select "Employed by a Crown Government."
